

2010 Mathematics Subject Classification index

Volume 1, 2014

- 39B62** A. Kulik, T. Tymoshkevych, [A martingale bound for the entropy associated with a trimmed filtration on \$\mathbb{R}^d\$](#) , 151
- 47D07** A. Kulik, T. Tymoshkevych, [A martingale bound for the entropy associated with a trimmed filtration on \$\mathbb{R}^d\$](#) , 151
- 60E15** A. Kulik, T. Tymoshkevych, [A martingale bound for the entropy associated with a trimmed filtration on \$\mathbb{R}^d\$](#) , 151
- 60F05** L. Sakhno, [Asymptotics for functionals of powers of a periodogram](#), 181
- 60F15** V. Makogin, Yu. Mishura, [Strong limit theorems for anisotropic self-similar fields](#), 73
- 60G10** Yu. Kozachenko, V. Troshki, [A criterion for testing hypotheses about the covariance function of a stationary Gaussian stochastic process](#), 139
L. Sakhno, [Asymptotics for functionals of powers of a periodogram](#), 181
- 60G17** V. Makogin, Yu. Mishura, [Strong limit theorems for anisotropic self-similar fields](#), 73
V. Radchenko, [Heat equation with general stochastic measure colored in time](#), 129
- 60G18** V. Makogin, Yu. Mishura, [Strong limit theorems for anisotropic self-similar fields](#), 73
Yu. Mishura, G. Rizhniak, V. Zubchenko, [European call option issued on a bond governed by a geometric or a fractional geometric Ornstein-Uhlenbeck process](#), 95

- 60G22** V. Makogin, Yu. Mishura, Strong limit theorems for anisotropic self-similar fields, 73
- 60G44** G. Kulinich, S. Kushnirenko, Strong uniqueness of solutions of stochastic differential equations with jumps and non-Lipschitz random coefficients, 65
- 60G51** T. Kosenkova, A. Kulik, Transportation distance between the Lévy measures and stochastic equations for Lévy-type processes, 49
Yu. Mishura, O. Ragulina, O. Stroyev, Practical approaches to the estimation of the ruin probability in a risk model with additional funds, 167
- 60G57** V. Radchenko, Heat equation with general stochastic measure colored in time, 129
- 60G60** V. Makogin, Yu. Mishura, Strong limit theorems for anisotropic self-similar fields, 73
- 60H07** D. Ivanenko, A. Kulik, LAN property for discretely observed solutions to Lévy driven SDE's, 33
Iu. Ganychenko, A. Kulik, Rates of approximation of nonsmooth integral-type functionals of Markov processes, 117
- 60H10** T. Kosenkova, A. Kulik, Transportation distance between the Lévy measures and stochastic equations for Lévy-type processes, 49
G. Kulinich, S. Kushnirenko, Strong uniqueness of solutions of stochastic differential equations with jumps and non-Lipschitz random coefficients, 65
Yu. Mishura, G. Rizhniak, V. Zubchenko, European call option issued on a bond governed by a geometric or a fractional geometric Ornstein-Uhlenbeck process, 95
- 60H15** V. Radchenko, Heat equation with general stochastic measure colored in time, 129
- 60H35** Iu. Ganychenko, A. Kulik, Rates of approximation of nonsmooth integral-type functionals of Markov processes, 117
- 60J55** M. Perestyuk, Yu. Mishura, G. Shevchenko, On the distribution of integral functionals of a homogeneous diffusion process, 109
- 60J60** M. Perestyuk, Yu. Mishura, G. Shevchenko, On the distribution of integral functionals of a homogeneous diffusion process, 109
A. Kulik, T. Tymoshkevych, A martingale bound for the entropy associated with a trimmed filtration on \mathbb{R}^d , 151
- 60J75** D. Ivanenko, A. Kulik, LAN property for discretely observed solutions to Lévy driven SDE's, 33
T. Kosenkova, A. Kulik, Transportation distance between the Lévy measures and stochastic equations for Lévy-type processes, 49
- 62F12** D. Ivanenko, A. Kulik, LAN property for discretely observed solutions to Lévy driven SDE's, 33

- 62G10** A. Doronin, R. Maiboroda, Testing hypotheses on moments by observations from a mixture with varying concentrations, 195
- 62G20** A. Doronin, R. Maiboroda, Testing hypotheses on moments by observations from a mixture with varying concentrations, 195
- 62H05** L. Aleksidze, M. Mumladze, Z. Zerakidze, The consistent criteria of hypotheses, 3
- 62H12** L. Aleksidze, M. Mumladze, Z. Zerakidze, The consistent criteria of hypotheses, 3
- 62J12** C. Chimisov, A. Kukush, Asymptotic normality of corrected estimator in Cox proportional hazards model with measurement error, 13
- 62M07** Yu. Kozachenko, V. Troshki, A criterion for testing hypotheses about the covariance function of a stationary Gaussian stochastic process, 139
- 62M15** L. Sakhno, Asymptotics for functionals of powers of a periodogram, 181
- 62N01** C. Chimisov, A. Kukush, Asymptotic normality of corrected estimator in Cox proportional hazards model with measurement error, 13
- 62N02** C. Chimisov, A. Kukush, Asymptotic normality of corrected estimator in Cox proportional hazards model with measurement error, 13
- 91B25** Yu. Mishura, G. Rizhniak, V. Zubchenko, European call option issued on a bond governed by a geometric or a fractional geometric Ornstein-Uhlenbeck process, 95
- 91B30** Yu. Mishura, O. Ragulina, O. Stroyev, Practical approaches to the estimation of the ruin probability in a risk model with additional funds, 167
