

2010 Mathematics Subject Classification index

Volume 10, 2023

- 11B37** D.J. Santana, L. Rincón, [Ruin probabilities as functions of the roots of a polynomial](#), 247
- 33C15** T. Zaeviski, N. Kyurkchiev, [On some composite Kies families: distributional properties and saturation in Hausdorff sense](#), 287
- 34A08** F. Colantoni, [Variance Gamma \(nonlocal\) equations](#), 413
- 35D40** M. Elhachemy, M. El Otmani, [Reflected generalized discontinuous BSDEs with rcll barrier and an obstacle problem of IPDE with nonlinear Neumann boundary conditions](#), 77
- 47N10** O. Bahchedjioglou, G. Shevchenko, [Minimax identity with robust utility functional for a nonconcave utility](#), 19
- 49J35** O. Bahchedjioglou, G. Shevchenko, [Minimax identity with robust utility functional for a nonconcave utility](#), 19
- 55N20** T. Shirai, K. Suzaki, [A limit theorem for persistence diagrams of random filtered complexes built over marked point processes](#), 1
- 60B10** T. Shirai, K. Suzaki, [A limit theorem for persistence diagrams of random filtered complexes built over marked point processes](#), 1
- 60C05** R. Giuliano, C. Macci, [Some examples of noncentral moderate deviations for sequences of real random variables](#), 111
- 60E05** M. Skorski, [Bernstein-type bounds for beta distribution](#), 211
T. Zaeviski, N. Kyurkchiev, [On some composite Kies families: distributional properties and saturation in Hausdorff sense](#), 287

- 60E10** T. Zaeviski, N. Kyurkchiev, [On some composite Kies families: distributional properties and saturation in Hausdorff sense](#), 287
- 60E15** N. Sakuma, R. Suzuki, [A modified \$\Phi\$ -Sobolev inequality for canonical Lévy processes and its applications](#), 145
- 60F05** R. Giuliano, C. Macci, [Some examples of noncentral moderate deviations for sequences of real random variables](#), 111
D. Buraczewski, C. Dong, A. Iksanov, A. Marynych, [Critical branching processes in a sparse random environment](#), 397
- 60F10** R. Giuliano, C. Macci, [Some examples of noncentral moderate deviations for sequences of real random variables](#), 111
- 60F17** J. Ivanovs, J.D. Thøstesen, [Lévy processes conditioned to stay in a half-space with applications to directional extremes](#), 59
- 60G17** J. Ivanovs, J.D. Thøstesen, [Lévy processes conditioned to stay in a half-space with applications to directional extremes](#), 59
- 60G22** D. Avetisian, K. Ralchenko, [Parameter estimation in mixed fractional stochastic heat equation](#), 175
- 60G51** J. Ivanovs, J.D. Thøstesen, [Lévy processes conditioned to stay in a half-space with applications to directional extremes](#), 59
N. Sakuma, R. Suzuki, [A modified \$\Phi\$ -Sobolev inequality for canonical Lévy processes and its applications](#), 145
F. Colantoni, [Variance Gamma \(nonlocal\) equations](#), 413
- 60G57** V. Radchenko, [Transport equation driven by a stochastic measure](#), 197
V. Radchenko, [The Burgers equation driven by a stochastic measure](#), 229
- 60G70** R. Giuliano, C. Macci, [Some examples of noncentral moderate deviations for sequences of real random variables](#), 111
- 60H05** M. Elhachemy, M. El Otmani, [Reflected generalized discontinuous BSDEs with rcll barrier and an obstacle problem of IPDE with nonlinear Neumann boundary conditions](#), 77
R.M. Łochowski, [BDG inequalities and their applications for model-free continuous price paths with instant enforcement](#), 425
- 60H07** N. Sakuma, R. Suzuki, [A modified \$\Phi\$ -Sobolev inequality for canonical Lévy processes and its applications](#), 145
- 60H10** M. Elhachemy, M. El Otmani, [Reflected generalized discontinuous BSDEs with rcll barrier and an obstacle problem of IPDE with nonlinear Neumann boundary conditions](#), 77
- 60H15** D. Avetisian, K. Ralchenko, [Parameter estimation in mixed fractional stochastic heat equation](#), 175
V. Radchenko, [Transport equation driven by a stochastic measure](#), 197
V. Radchenko, [The Burgers equation driven by a stochastic measure](#), 229

- 60H30** M. Elhachemy, M. El Otmani, [Reflected generalized discontinuous BSDEs with rcll barrier and an obstacle problem of IPDE with nonlinear Neumann boundary conditions](#), 77
- 60J10** V. Golomoziy, [On geometric recurrence for time-inhomogeneous autoregression](#), 313
- 60J75** N. Sakuma, R. Suzuki, [A modified \$\Phi\$ -Sobolev inequality for canonical Lévy processes and its applications](#), 145
- 60J80** D. Buraczewski, C. Dong, A. Iksanov, A. Marynych, [Critical branching processes in a sparse random environment](#), 397
- 60K05** V. Golomoziy, [On geometric recurrence for time-inhomogeneous autoregression](#), 313
- 60K35** T. Shirai, K. Suzuki, [A limit theorem for persistence diagrams of random filtered complexes built over marked point processes](#), 1
- 62F10** D. Avetisian, K. Ralchenko, [Parameter estimation in mixed fractional stochastic heat equation](#), 175
- 62F12** D. Avetisian, K. Ralchenko, [Parameter estimation in mixed fractional stochastic heat equation](#), 175
- 62J02** O. Dykyi, A. Ivanov, [Consistency of LSE for the many-dimensional symmetric textured surface parameters](#), 267
- 62J99** O. Dykyi, A. Ivanov, [Consistency of LSE for the many-dimensional symmetric textured surface parameters](#), 267
- 90C26** O. Bahchedjioglou, G. Shevchenko, [Minimax identity with robust utility functional for a nonconcave utility](#), 19
- 91A05** T. Zaeviski, [Perpetual cancellable American options with convertible features](#), 367
- 91A15** T. Zaeviski, [Perpetual cancellable American options with convertible features](#), 367
- 91A99** R.M. Łochowski, [BDG inequalities and their applications for model-free continuous price paths with instant enforcement](#), 425
- 91B05** D.J. Santana, L. Rincón, [Ruin probabilities as functions of the roots of a polynomial](#), 247
- 91B16** O. Bahchedjioglou, G. Shevchenko, [Minimax identity with robust utility functional for a nonconcave utility](#), 19
- 91B70** T. Zaeviski, [Perpetual cancellable American options with convertible features](#), 367

- 91G05** D.J. Santana, L. Rincón, [Ruin probabilities as functions of the roots of a polynomial](#), 247
- 91G10** O. Bahchedjioglou, G. Shevchenko, [Minimax identity with robust utility functional for a nonconcave utility](#), 19
- 91G20** T. Zaeviski, [Perpetual cancellable American options with convertible features](#), 367
- 91G99** R.M. Łochowski, [BDG inequalities and their applications for model-free continuous price paths with instant enforcement](#), 425
